

2025 | Year in Review

Thank you for your partnership!

Highlights

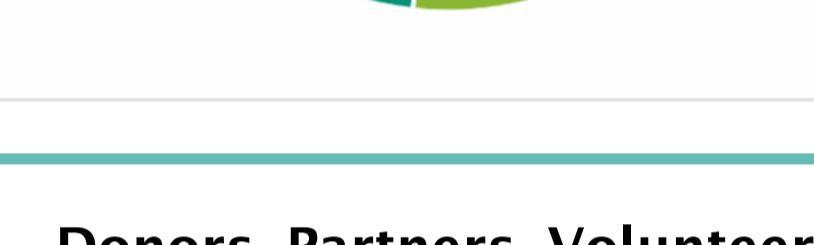

Seattle/King County Clinic, photo courtesy of Auston James

- In fiscal year 2025, we enrolled 484 new healthcare providers and 13 new sites in the [Volunteer and Retired Providers Program](#). There are now 135 sites and 3,432 volunteers enrolled statewide.
- Our [2025 Washington Free and Charitable Care Conference](#) was hosted in Longview, showcasing the work of [Community Health Partners](#).
- In partnership with the [Washington Area Health Education Center Program](#), we published the [Student Volunteerism in Washington Free Clinics report](#).

- We created a system to assign value to free clinic care using average, allowable, public reimbursement rates to federally qualified health centers. Based on the data reported for medical, dental, behavioral health, vision, clinical lab, imaging, vaccine, and prescription services, the 2024 value of free clinic care provided to Washington residents was \$10.5M. 2025 patient care data will be collected early this year.
